DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12, drawn to an in-vivo tissue inspection device, classified in class 600, subclass 478.
- II. Claims 13-22, drawn to an in-vivo cervical tissue inspection system, classified in class 600, subclass 473.
- III. Claims 23-29, drawn to a method of inspecting cervical tissue, classified in class 600, subclass 407.
- IV. Claims 30-36, drawn to a method of screening cervical tissue, classified in class 600, subclass 407.

The inventions are distinct, each from the other because of the following reasons:

Inventions Groups (I and II) and Groups (III and IV) are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown:

(1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product can be practiced with another and materially different product such as one with or without a light source.

Art Unit: 3742

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Kevin Harrison on 8-11-2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
